British Columbians consume +/- 55 million tonnes of aggregates annually in the construction of schools, hospitals, roads and general infrastructure construction. The aggregate producers employ several thousand employees throughout BC, and generate over 3 billion dollars in economic benefits for the Provincial economy. We continue to strive to ensure a safe workplace for all employees in the industry.

**Other News:** The APABC, in conjunction with its partners, the Ministry of Energy, Mines and Petroleum Resources and the Construction Safety Network, are pleased to announce the official launch of the Workplace Safety Program. The program identifies several job tasks within a mine site and provides training and awareness to mitigate any potential hazards that could injure employees on the work site. To find out more about the Workplace Safety Program, please contact the Aggregate Producers Association of BC at [gravelbc@telus.net](mailto:gravelbc@telus.net) or the Construction Safety Network at [info@safetynetwork.bc.ca](mailto:info@safetynetwork.bc.ca)

The APABC continues its affiliation with the BC Roadbuilders and Heavy Construction Association and the Canadian Association of Equipment Distributors (BC Chapter).

If any of you wish to be added to our mailing list to receive our newsletter “SCREENINGS”, please advise and I will add you to our electronic mailing list.

Thank you,

Paul Allard – Executive Director
